Keith Valley Middle School Library

Young Adult Fiction Opt-Out 2018-2019

At this time I do not give permission to my child to check out school library books with a YA sticker.

I understand that I may grant permission at any time I think is more appropriate.

The Keith Valley Middle School Library provides services to a diverse learning population. In addition to providing instruction and curriculum-based resources, the Library provides an extensive collection of books to nurture and encourage reading habits. We offer a wide selection of non-fiction, and our fiction collection includes all genres plus picture books, graphic novels, and YA titles. Your child will learn to identify the genre stickers on the spines of the KVMS Library books.

Young Adult (YA) fiction refers to books that are considered appropriate for ages 12 to 18 years (two examples are The Outsiders by S.E. Hinton and Deenie by Judy Blume). Generally speaking, these are stories of adolescent characters with plots that involve teen issues that the characters must overcome. These books are included in our collection so that we can meet the interests of older students and provide challenging material to more advanced and/or more mature readers. In some cases there may be objectionable behavior portrayed in the story.

We respect your role as parent and want you to be informed about the opportunities available to your child. If you wish to withhold your permission for your child to borrow books with YA stickers, you may request an opt-out form from the Keith Valley Middle School Library.

Thank you,
